PROFESSIONAL EXPERIENCE

Log(N) Pacific — Cybersecurity Support Technician (Intern)

December 2025 – Present | Remote

- Administered IAM operations across a multi-tenant Active Directory and Microsoft Entra ID environment, executing provisioning, deprovisioning, role assignments, and access reviews for enterprise users.
- Resolved MFA authentication failures and access escalations for Microsoft 365 users, applying structured troubleshooting to identify root causes and restore access with minimal downtime.
- Troubleshot Azure services including Sentinel, virtual machines, Entra ID, and Okta; diagnosed configuration issues and escalated complex incidents per established SLA guidelines.
- Configured Azure Network Security Groups (NSGs), diagnostic settings, and network flow logs to support security monitoring and compliance requirements.

Culinary Dropout — Bartender

2024 – Present | Phoenix, AZ

- Delivered high-volume customer service in a fast-paced environment, managing 100+ customer interactions per shift with consistent professionalism.
- Resolved complaints through active listening and de-escalation; troubleshot POS system issues in real time during peak hours.
- Onboarded and trained new team members on operational procedures, systems, and service standards.

Amerivest Realty — Real Estate Sales Agent

January 2022 – February 2024 | Fort Myers, FL

- Managed client relationships through the full transaction lifecycle; leveraged Salesforce CRM to track pipeline activity and streamline communications.

Minnesota Twins / MiLB — Professional Baseball Player

2012 – 2019

- Served as team captain and bilingual liaison across diverse roster environments; demonstrated leadership, discipline, and composure under high-pressure conditions over a seven-year professional career.

PROJECTS

Azure Security Monitoring Lab — GitHub

Configured Microsoft Sentinel, Log Analytics, and NSGs to monitor and visualize security alerts in a simulated enterprise environment.

Portfolio Website

Designed and developed a responsive portfolio using HTML5, CSS3, Flexbox/Grid; deployed via GitHub Pages.

EDUCATION

Information Technology — UPEL IPB, Venezuela
